

Appln. No. 09/736,076
Amdt. dated November 12, 2003

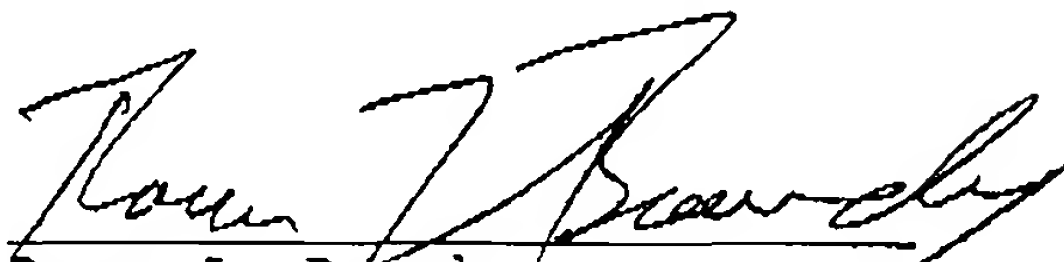

REMARKS

Claims 1-39 and 42-50 presently appear in this case. The present amendment is being filed to place the case into better condition for initial examination on the merits. Note that new claims 43-50 are directed to the use of the peptides that were allowed in patent no. 6,174,993, that issued from the parent application no. 08/861,338.

As all of the claims are directed to the elected Group III, it is urged that all be examined and allowed in this case.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
Attorneys for Applicant(s)
